DETAILED ACTION

1. Applicant's election of claims Group I, claims 1-22 in the reply filed on 2/24/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Thus, claims 23-25 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 2/24/06.

An Office action on the merits of claims 1-22 as follows:

2. The abstract of the invention should be revised to read on the method instead of the product.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Winkler (5,417,208).

Winkler discloses a method for manufacturing a medical device, comprising:
forming a device body 12; forming a first electrically conductive element 45 or 29 on the

Art Unit: 3729

device body 12; forming a first electrode 30 on the device body 12; and operably connecting the first electrode 30 and the first electrically conductive element 45 or 29 (as shown in Fig. 1 and discussed at col. 4, lines 55-59, col. 5, lines 17-20).

As applied to claim 2-3 and 5, The Wrinkler reference discloses the limitations of these claims including forming second electrode 30b and the forming of tip and it affixing the tip to the body 12 (see Figs. 1, 8 and 9) and the extruding cylindrical plastic body 20 and 44 as discussed at col. 5, lines 43-45.

Allowable Subject Matter

5. Claims 4, 6-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited for the teachings of manufacturing catheter device or the like.
